LOVE ON THE RUN

Despite the odds, Franny Peterson always knew she'd make it big. With a heart of gold and a loving and kind personality, all 250 pounds of her knew that one day she'd make it out of her small town with the man of her dreams.

Who knew that today would be that day...while waiting in line at the bank, listening to music on her ipod, in walks, from cowboy boots to cowboy hat... the most gorgeous guy she's ever seen. When their eyes meet she's sure this is the one...

The fact that Rick is now holding up the bank and taking her hostage does not deter her from her mission. This wasn't exactly the way she dreamed it would all go down, but she's eager to get out of her small town and is up for the adventure.

Unfortunately for Franny, Rick has other plans. If she survives the journey, it's possible, Franny could find a future even she couldn't have imagined.

**FIRST EVER ALIEN DISCOVERY Documentary,
DNA VERIFIED BY STANFORD, one of USA's most
prestigious Universities.**

Sirius is a feature length documentary that follows Dr. Steven Greer - a medical doctor turned UFO/ New Energy researcher - as he struggles to disclose top secret information about classified energy & propulsion techniques. Along the way, Dr. Greer investigates new technology and sheds light on criminal suppression. He accumulates over 100 Government, Military, and Intelligence Community witnesses who testify on record about their first-hand experiences with UFOs and with the cover-up.

In the course of his research Dr. Greer is asked to look at an amazing find: a humanoid specimen, 6 inches long from the Atacama Desert. Not until 2012 was he given permission to take bone samples and DNA from the specimen. At that same time a pre-eminent geneticist, hearing of this find, offered to do DNA testing. He enlisted an MD from the same university, - world renowned for his work with skeletal anomalies, to view the x-rays and CT scans. Their expertise along with Dr. Greer's expansive knowledge of the subject bring more questions than answers. Where did this 'Atacama Humanoid' come from? Are there others like it? What does it say about the origin of the human species?

While on this odyssey, the audience gains a whole new perspective on technology, human evolution, and clandestine organizations who have manipulated and controlled the public for centuries.

It's hard not to like Tracy Orbison (HUBBEL PALMER). An introspective Midwestern stock-boy, Tracy passes his days scribbling poems in a notebook during shift breaks and day-dreaming of making something more of himself... although there's already quite a bit of him.

In a moment of enlightenment, he enrolls in an acting class taught by a pompous local actor (played by a hilarious WILLIAM BALDWIN). Things don't quite go according to plan, and a tragically comical chain of mishaps leads Tracy to take a more active role in his life. He mentors a young delinquent, fends off his obnoxious mother (Academy Award® Nominee KATHLEEN QUINLAN) and wallflower sister (MARY LYNN RAJSKUB, *Julie & Julia*, and hit TV series *24*), and attempts to conquer the elusive driver's exam. A different kind of everyman, Tracy Orbison reminds us that the caution light flashes even while chasing our dreams.
